Subject: Jeff is checking back IN both the Dose Additivity White Pape: clean draft and draft with reviewer comments + Infor for 10 AM Call tomorrow
Attachments: Additivity Report 7-31-18 (gr, jcs).docx; Additivity Report wirh RAF Comments 7-31-18 (jcs).docx

I have finished all my edits to chapters 2, 3 & 4 plus addition to Appendix A (the isobole/harmonic mean description) and a few minor editorial fixes to 5 & 6 (editor's notes to author, not the reviewer comments). I got almost all of them but did not address the HI naming issue; leaving that for Marian. There are a few questionable things that I highlighted in blue (in my comment bubbles), mainly for Glenn (search for "Glenn" in the "clean" document). I have entered brief replies to the reviewer comments in the commented version to indicate what I have done. This version incorporates Glenn's edits in 3 also. Glenn will be working on chapter 5 tomorrow but if anyone wants to check it out today briefly, feel free.
